Grace and Lawrence,

I am attaching the most up to date copy of the Scoping document with comments (most are ORD's comments), which will be discussed today.

There are a few other documents/topics that OPPT will be going over not specifically related to the scoping part as noted below.

Thanks.

- Walter

Good morning all,

I hope everyone is staying healthy. Today we will cover

1. Early Guidance documents
2. Synergies between CDR and this effort
3. CBI implications

Note that in addition to the new OGC options paper (Attachment 3), there is an updated Attachment 2 scoping options with ORD comments. Please take a look at those and the others before our meeting today and come ready to discuss any lingering issues.

James
